

Extended Warranty for Alpha: Eligible Equipment

The Extended Warranty for the Alpha is individual to the regions of the world and their specific needs.

Typically we will extend our manufacturer's warranty by one or two years or up to 100,000 drinks, whichever comes earlier. The equipment must have a signed Preventative Maintenance contract during the full period of the extended warranty. The extended warranty starts the day following the last day of our manufacturer's warranty and expires one year or two years thereafter, depending on the length of the extension chosen.

Please contact your Melitta representative for further information on the Extended Warranty.
