

Part & Labor Warranty

MSS warrants the products as follows:

The Alpha Warranty is individual to the regions of the world and their specific needs.

Typically all products other than as specified in the Operator's Manual include 2 years parts and labor.
Electronic circuit and/or control boards: 3 years parts only.

The warranty covers defects in material or workmanship. The equipment must have a signed Preventative Maintenance contract during the full period of the extended warranty. See the Operator's Manual for additional information.

Please contact your Melitta representative for further information on the Extended Warranty.
